Nel rispetto del pensiero " Niente su di Noi senza di Noi "

I ministri hanno obiettivi importanti

•

promuovere un nuovo modo di pensare

•

eliminare le barriere che ostacolano le persone con disabilità

•

promuovere l'indipendenza e l'autonomia

•

sviluppare i talenti e le competenze

•

riconoscere le discriminazioni verso le persone con disabilità

I ministri

hanno detto che

per cambiare

la società

,

la politica

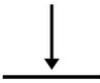

e il modo di pensare

sulla disabilità

è

importante

coinvolgere

le famiglie

e i caregiver

delle persone

con disabilità

e le associazioni

che le rappresentano

.

I ministri hanno detto che per raggiungere l'inclusione

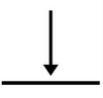

delle persone con disabilità

è importante collaborare con

The image contains 12 icons arranged in three rows. The first row has five icons: a group of people in front of a building with a plus sign, a person with a thought bubble, two squares with a plus sign, a downward arrow, and a sun with rays. The second row has four icons: a hand holding a coin, a lowercase 'i' in a circle with a plus sign, a pie chart, and a person with a wheelchair and hearing aid. The third row has two icons: a person reading a book and a person with a lightbulb and a document. There are also three punctuation marks: a comma after the second row and a period after the third row.

Priorità

:

valorizzare

i talenti

e l'inclusione

lavorativa

Il lavoro

è

molto importante

per avere

una vita

indipendente

e autonoma

,

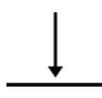

per realizzare

il progetto di vita

e per essere

inclusi

nella società

.

Il lavoro

è

un diritto

delle persone

con disabilità

.

Il lavoro

rafforza

l'autodeterminazione

e l'indipendenza

e valorizza

i talenti

,

cioè

le capacità

delle persone

.

I Paesi devono contrastare le barriere

che ci sono nel mercato del lavoro

Le organizzazioni delle persone con disabilità

danno alle persone con disabilità aiuti

informazioni e strumenti per avere successo nel lavoro

I ministri

si impegnano a

promuovere

l'inserimento lavorativo

delle persone

con disabilità

rispettando

le preferenze

e i desideri

fermare

le discriminazioni

sul luogo di lavoro

anche

facendo adattamenti

e usando

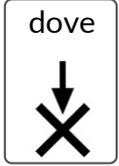

nuove

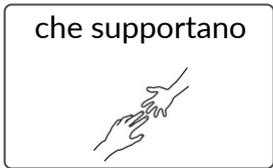

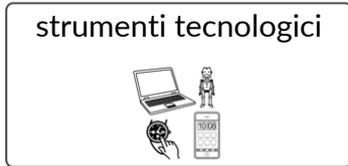

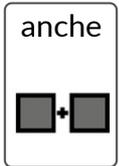

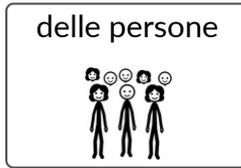

tecnologie

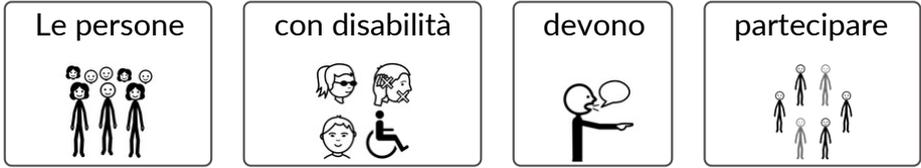

•

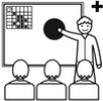

•

Le persone con disabilità devono partecipare

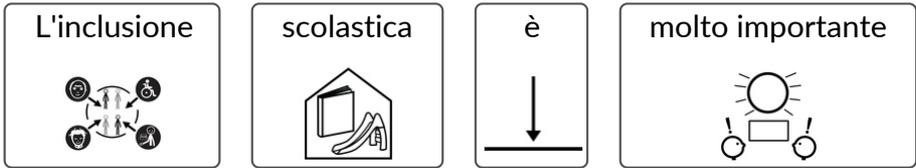

ai corsi di formazione professionale

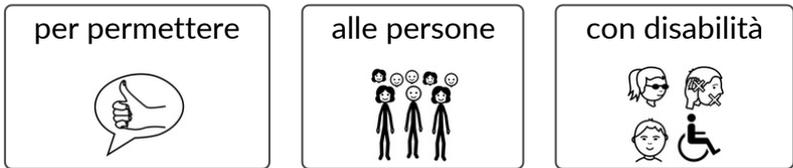

•

L'inclusione scolastica è molto importante

per permettere alle persone con disabilità

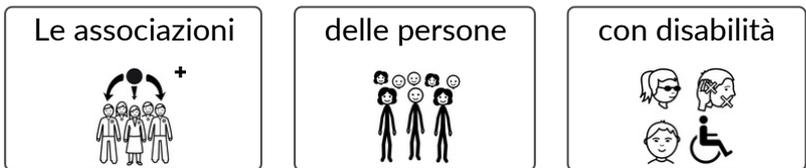

di avere successo nel lavoro

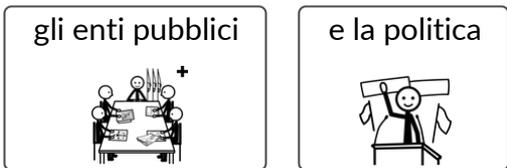

•

Le associazioni delle persone con disabilità

,

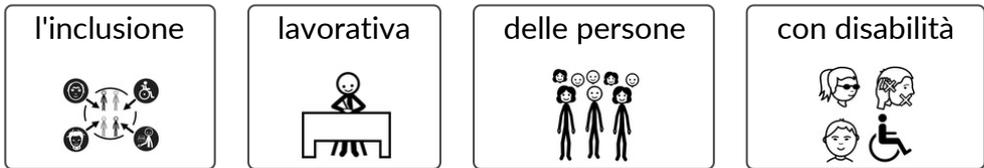

gli enti pubblici e la politica

devono collaborare per migliorare

l'inclusione lavorativa delle persone con disabilità

•

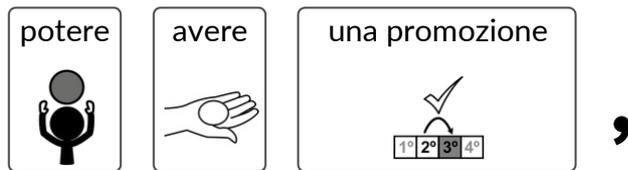

Le persone con disabilità devono

ricevere il giusto stipendio

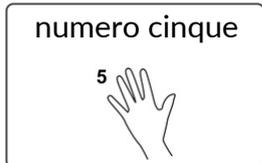

potere avere una promozione

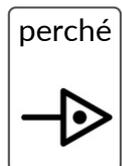

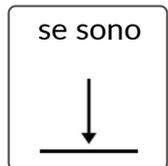

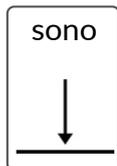

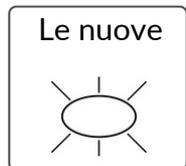

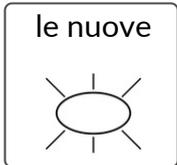

lavorare in un posto sicuro

•

•

,

•

Le nuove tecnologie aiutano a migliorare l'inclusione,

ma devono essere accessibili.

Le persone con disabilità devono partecipare

a progettare e realizzare le nuove tecnologie accessibili.

Le nuove tecnologie sono importanti e utili,

ma bisogna essere attenti ai rischi.

Ad esempio bisogna proteggere i dati personali.

nome, cognome, età.

I ministri

si impegnano a

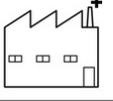

:

collaborare

con le aziende

,

con le organizzazioni

delle persone

con disabilità

,

con i rappresentanti

degli enti di formazione

e del settore tecnologico

e con i responsabili

della sicurezza

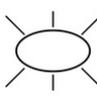

dei sistemi tecnologici

per creare

nuove

tecnologie

inclusive

,

accessibili

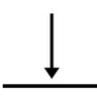

e sicure

.

È

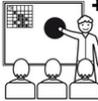

importante

che i professionisti informatici

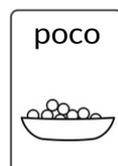

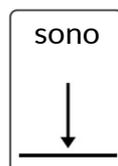

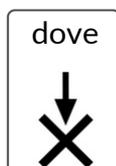

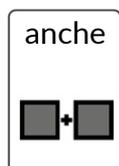

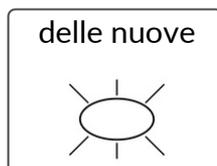

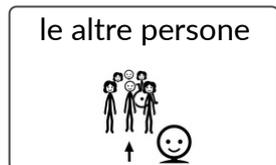

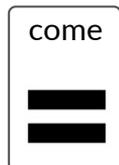

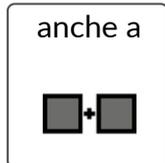

seguano delle formazioni

sull'accessibilità

.

I ministri

incoraggiano

il settore tecnologico

a produrre

tecnologie

di sostegno

per favorire

l'indipendenza

e l'autonomia

delle persone

con disabilità

nel lavoro

,

nell'istruzione

,

nell'informazione

•

I ministri si impegnano a fare rappresentare le persone con disabilità

in modo positivo in televisione , alla radio , sul giornale

seguendo quello che è scritto nella Convenzione ONU

sui diritti delle persone con disabilità

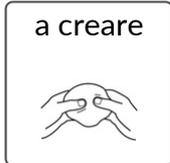

I ministri si impegnano a far capire alle persone

che i diritti delle persone con disabilità sono importanti

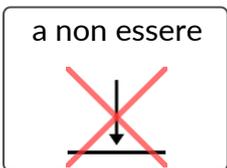

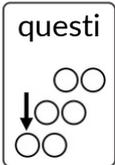

e che le persone con disabilità hanno molti talenti

I ministri vogliono eliminare i pregiudizi e le barriere

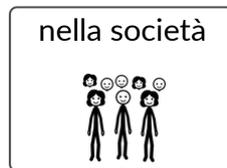

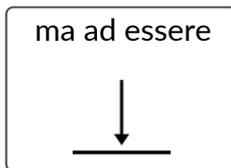

contro le persone con disabilità

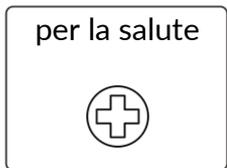

:

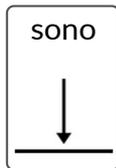

,

.

,

.

Questi servizi devono essere accessibili

perché le persone con disabilità

devono avere pari opportunità,

devono potere usare i servizi come gli altri.

I servizi sanitari devono essere accessibili.

le persone con disabilità devono avere informazioni

facili da leggere e da capire

per scegliere le cure come gli altri.

Il personale sanitario deve essere formato ,

deve sapere aiutare le persone con disabilità

e deve contrastare le discriminazioni e i pregiudizi .

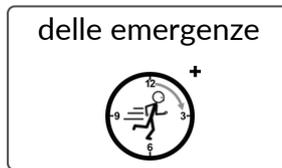

I ministri dicono che le persone con disabilità

devono potere prendere decisioni sulla propria vita

e devono ricevere aiuto quando hanno bisogno .

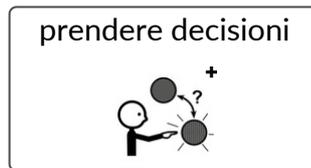

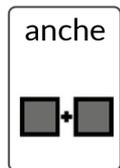

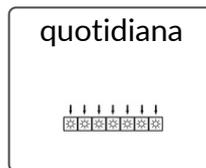

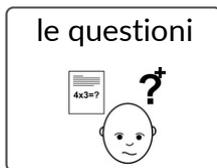

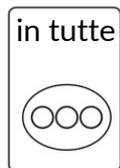

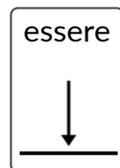

:

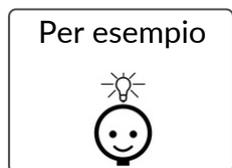

,

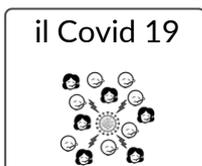

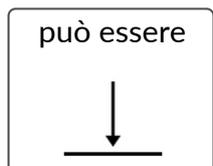

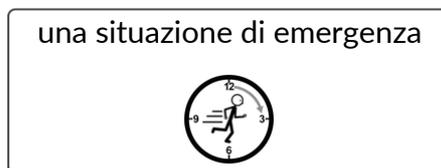

,

.

,

.

Quando c'è una situazione di emergenza ,

o una catastrofe per la crisi climatica

le persone con disabilità sono più in pericolo di morire

rispetto alle persone senza disabilità .

Per questo durante le situazioni di emergenza

è importante pensare

ai bisogni delle persone con disabilità .

I governi dei Paesi devono pensare ai bisogni

delle persone con disabilità .

I ministri dicono che è importante

pensare alle persone con disabilità

quando i governi fanno progetti per prevenire i rischi

e per prepararsi alle situazioni di emergenza

I ministri si impegnano a

fare scrivere i rischi e i bisogni delle persone con disabilità

nei progetti dei Paesi per le situazioni di emergenza

I ministri si impegnano a controllare che i piani di emergenza

e i progetti di azione umanitari

siano accessibili e inclusivi

I progetti di azione umanitari aiutano le persone

che abitano in paesi dove ci sono state delle catastro

I ministri

si impegnano

a seguire

le linee guida

sull'inclusione

delle persone

con disabilità

Le linee guida

sono state scritte

da un comitato

dell'ONU

Questo

comitato

aiuta

le persone

nelle crisi umanitarie

I ministri

dicono

che è

importante

coinvolgere

le persone

con disabilità

le loro

organizzazioni

e le associazioni

del Terzo Settore

per essere

pronti

ad aiutare

le persone

con disabilità

nelle situazioni di emergenza

I ministri si impegnano a raccogliere dati e informazioni

sulle persone con disabilità e sulle barriere dell'ambiente

per capire meglio quali sono i rischi

per le persone con disabilità ,

come prevenirli o risolverli dopo un'emergenza

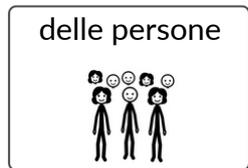

I ministri conservano in sicurezza i dati che hanno raccolto

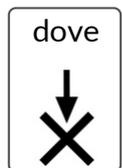

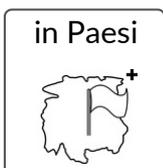

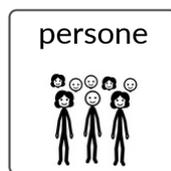

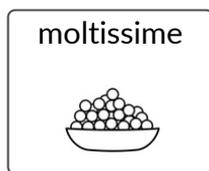

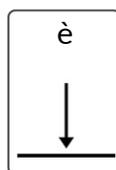

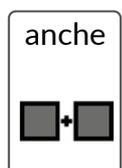

.

.

,

.

I ministri dicono che è importante

l'incontro del Global Disability Summit

Questo incontro vuole migliorare la vita

di tutte le persone con disabilità

The G7 event

in October

was organised

by the Italian

Minister

for Disabilities

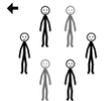

Alessandra Locatelli

The G7 event

was attended by

representatives

of governments

institutions and associations

of persons

with disabilities

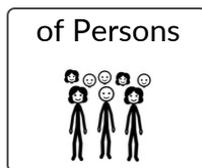

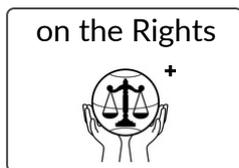

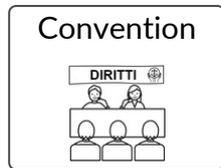

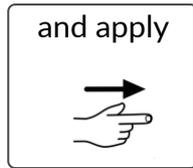

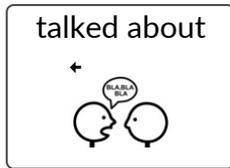

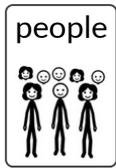

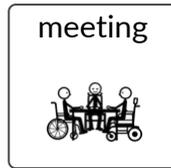

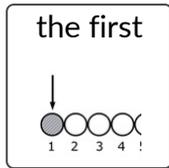

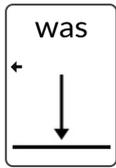

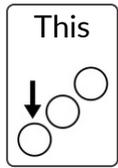

and their

families

Introduction

The G7

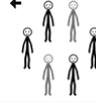

Inclusion

and Disability

was attended by

the ministers

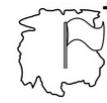

for Disability

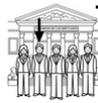

from seven

7

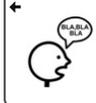

Countries

The ministers

said

that all persons

have

equal rights

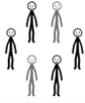

to live

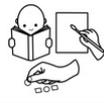

full lives

and to participate

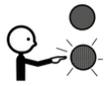

in the life

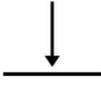

of society

The goal to achieve

is the realization

of the human

rights

of persons

with disabilities

The ministers

for disability

were asked

to write

and promote

the Charter

of Solfagnano

In the Chart it is written

that everyone makes a commitment to promote

work inclusion , school inclusion ,

independent living , accessibility ,

inclusive technologies + and new services

for persons with disabilities .

The ministers

make a committment

to apply

the United Nations

Convention

on the Rights

of Persons

with Disabilities

and to promote

the inclusion

of persons

with disabilities

in sports

cultural

and leisure activities

in the prevention

of risks

and emergency situations

in the protection

and promotion

of human

rights

in the protection

of fundamental

freedoms

following the

the slogan

Nothing About Us Without Us

The ministers have important goals

to promote a new way of thinking

to eliminate barriers that create difficulties

for persons with disabilities

to promote the independence and autonomy

of persons with disabilities

to promote their talents and skills

to recognize the discriminations against persons with disabilities

The ministers

said that

to achieve

a real change

in politics

and in the way of thinking

of society

on persons

with disabilities

it is important

to involve

the families

and caregivers

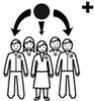

of persons

with disabilities

and the organisations

that represent them

The ministers

said that

to achieve

the inclusion

of persons

with disabilities

it is important

to work with

international

organisations

organisations

of persons

with disabilities

persons

with disabilities

public institutions

communities

and citizens

organisations

in society

The ministers

want to achieve

eight

important

goals

•

Inclusion

•

Access and

accessibility

•

Autonomous

and independent

life

•

Enhancement

of talents

and work

inclusion

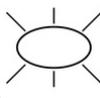

•

Promotion

of new

technologies

•

Participation

in sports

,

cultural

and recreational activities

- Dignity of life and appropriate services

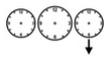

- Prevention and management of emergency

and post emergency situations

,

including armed conflicts and humanitarian crisis

•

The ministers

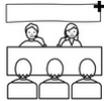

agree

•

with the speeches

of the associations

that deal with

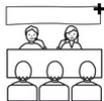

disabilities

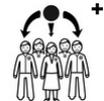

•

with the speeches

of the organisations

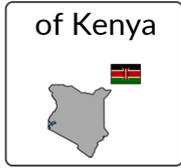

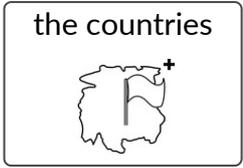

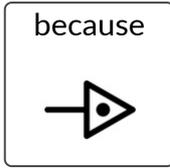

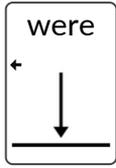

International Disability Alliance

and European Disability Forum

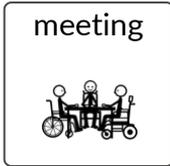

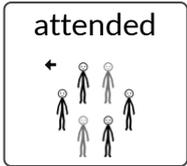

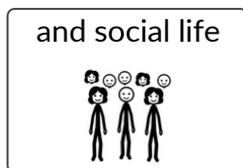

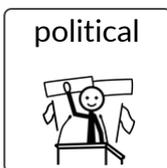

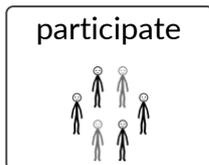

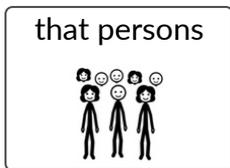

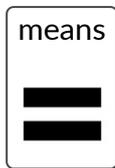

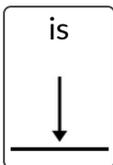

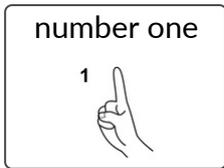

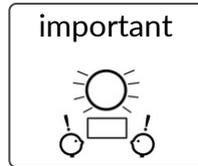

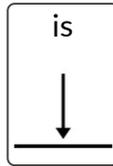

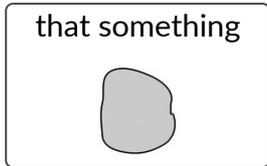

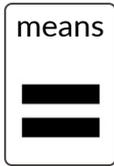

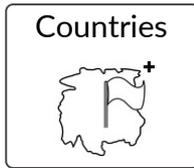

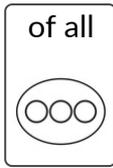

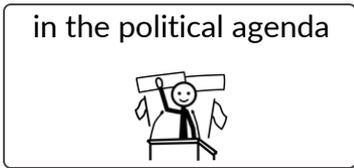

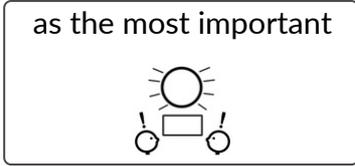

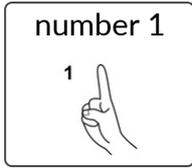

,

,

.

Persons with disabilities have the right to participate

in the decisions regarding

school, work, accessibility, of services.

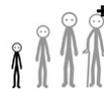

Unfortunately even today persons with disabilities

are discriminated against,

that is they are treated differently from others

and they are unable to participate.

Women +

and children +

with disabilities

are

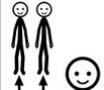

discriminated against

twice

••

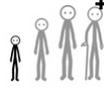

rst

because

they

are

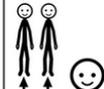

women +

and children +

,

and second

because

they

have

a disability

•

With this

document

the ministers

want

to oppose

discriminations

and to promote

equal rights

and equal opportunities

To achieve

true

inclusion

persons

with disabilities

,

organisations

representing them

and organisations

of the Third Sector

must

participate

in the decisions

on the life

of persons

with disabilities

The ministers

are committed

to promoting

the theme of

inclusion

and respect

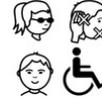

of the rights of

persons

with disabilities

in the discussions

during

the G7

,

the G20

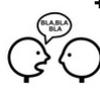

forum

and in international

discussions

.

The G20

is

a working group

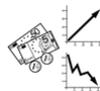

of ministers

that deal with

Economy and Finance

in the twenty

20

most industrialised

Countries

in the world

.

It is important

to protect

the rights

of persons

with disabilities

through clear

actions

,

according

to what is written

in the United Nations

Convention

on the Rights

of Persons

with Disabilities

.

The ministers

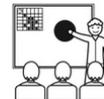

say that

it is important

to provide training

and information

on the rights

of persons

with disabilities

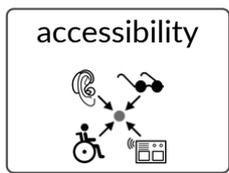

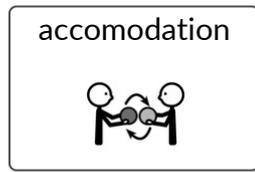

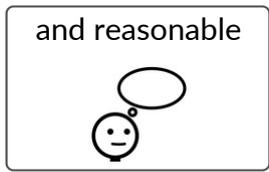

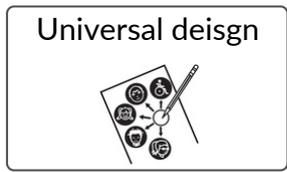

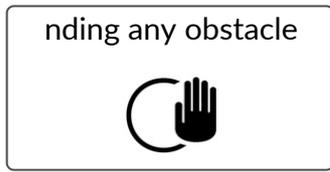

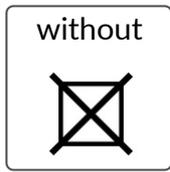

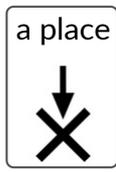

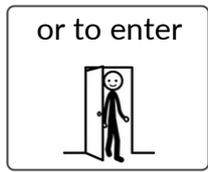

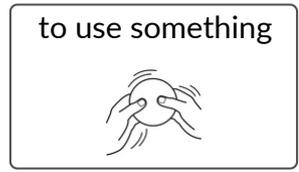

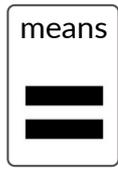

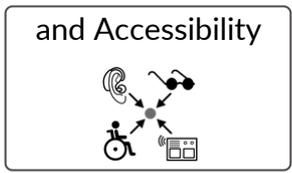

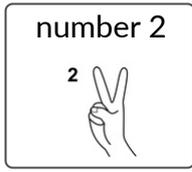

to oppose

discrimination

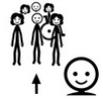

.

Reasonable 	accommodation 	means 	modifications 	that must be made 
---	--	--	---	--

to remove 	obstacles 	that do not allow 	persons 	with disabilities 
--	--	--	---	--

to participate 	in a similar way 	to others 	•
---	---	--	---

Reasonable 	accommodation 	is 	a right 
---	--	---	--

of persons 	with disabilities 	•
---	--	---

The United Nations

Convention

affirms that

universal design

creates

services

infrastructures

products

and programmes

that everyone

can

use

without needing

to adapt them

Persons

with disabilities

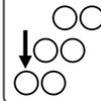

can

use

those

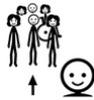

services

in a similar way

to others

Accessibility also means to have information that is easy to read

for persons who have difficulty reading .

Accessibility is a right .

everyone has the right

to access public spaces , services , transportation

and everyone has the right to understand information ,

communications , websites .

The ministers

agree

To promote

policies

to encourage

accessibility

in every

aspect of life

such as

work

home life

school

transport

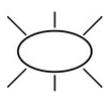

communication

To create

new

spaces

accessible

to everyone

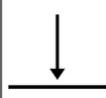

These

spaces

are

for example

roads

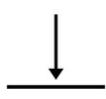

buildings

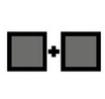

workplaces

They are

also

digital

spaces

such as

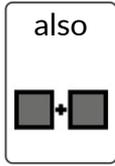

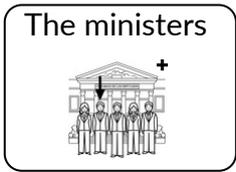

websites

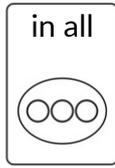

mobile phones

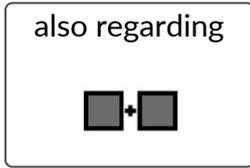

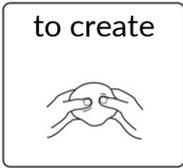

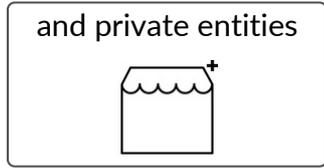

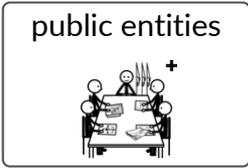

•

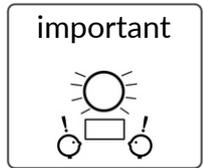

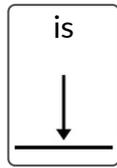

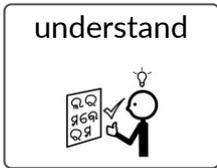

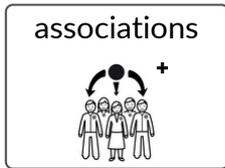

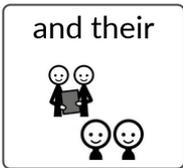

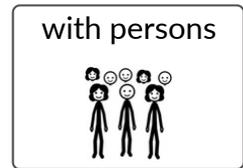

•

•

•

•

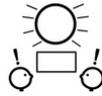

Accessibility

is

fundamental

in allowing

persons

with disabilities

to be

independent

and autonomous

and to participate

in the life

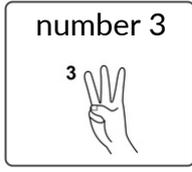

of society

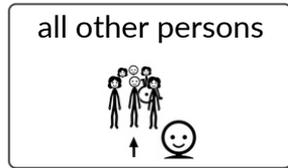

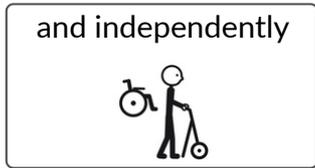

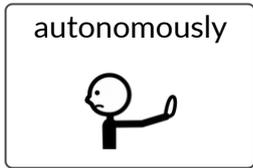

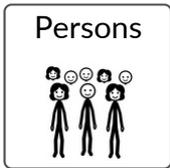

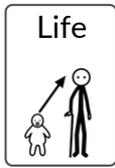

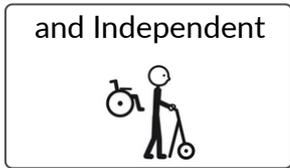

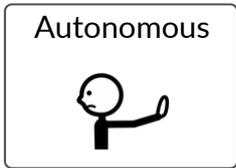

and of the community

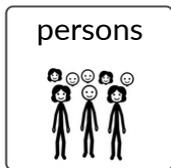

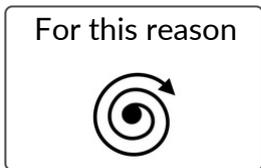

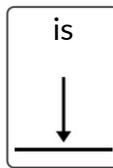

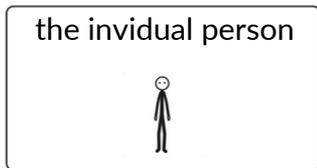

:

•

,

•

Having

the right

services

and supports

means

having

accessible

services

,

also through

modifications and adaptations

,

for example

for home

or for work

.

The ministers

want

to ensure

access

to services

and to appropriate

support

because

this

is

a right

of persons

with disabilities

The ministers

want

to simplify

bureaucratic procedures

to promote

accessibility

of services

and support

The ministers

think that

healthcare

,

social services

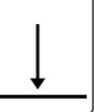

and assistance

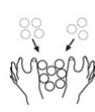

must

be

integrated

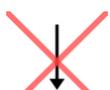

These

services

must not be

separated from each other

The ministers

want

:

To promote

an inclusive

society

without

barriers

To create

policies

and actions

to promote

accessibility

and reasonable

accommodation

of products

and services

to guarantee

that persons

with disabilities

are able

to choose

where

to live

,

how

to live

,

and with whom

to live

.

The ministers

also

want

•

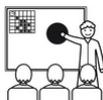

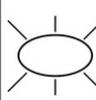

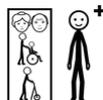

• To promote

the development

of new

accessible

technological tools

and the training

of new

experts

capable of

being

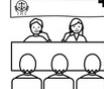

facilitators

for persons

with disabilities

• To promote

and organise

specific initiatives

• To promote

collaborations

among experts

and the services

to allow

persons

with disabilities

to have

an independent

living project

•

The ministers

also

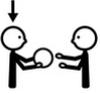

agree on

the importance

of offering

completely

accessible

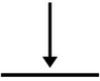

information

,

which are

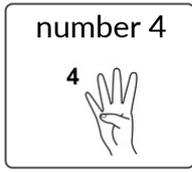

easy to read

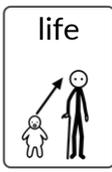

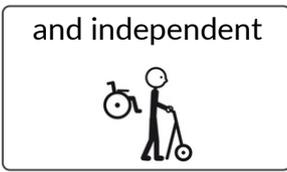

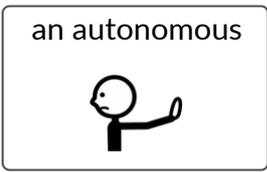

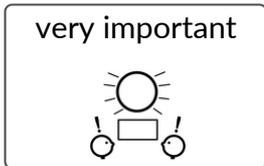

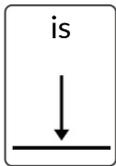

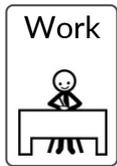

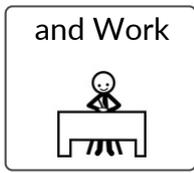

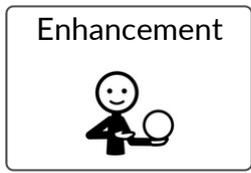

and to understand

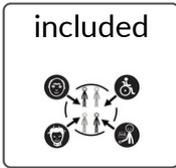

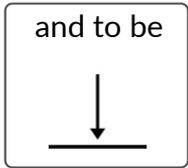

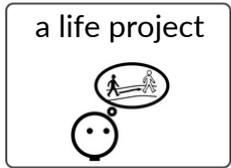

.

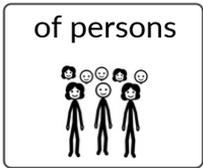

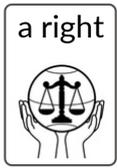

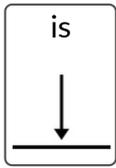

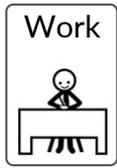

•

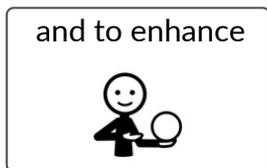

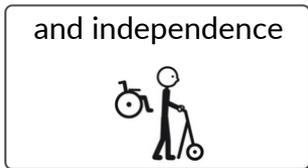

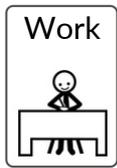

,

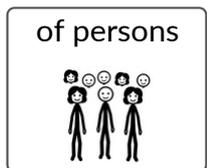

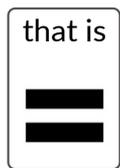

•

•

,

•

Countries

must

oppose

barriers

in the labour market

.

The organisations

of persons

with disabilities

give

persons

with disability

support

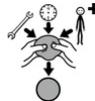

,

information

and tools

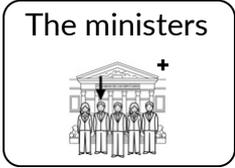

to succeed

at work

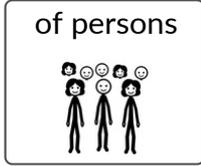

.

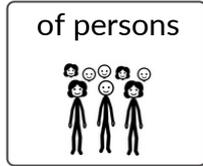

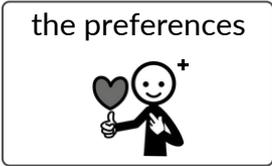

:

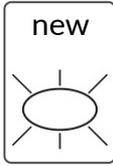

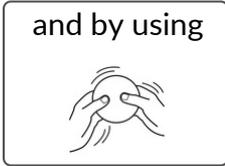

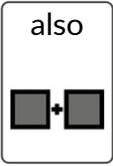

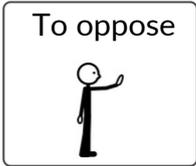

•

•

•

•

To promote

work

organisational models

in which

the person

is

at the centre

•

To enhance

the talents

of persons

with disabilities

also

by means of adaptations

and by using

technologies

that help

persons

with disabilities

in the work environment

•

Persons

with disabilities

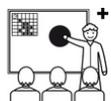

must

participate

in training programmes

•

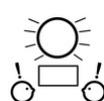

School

inclusion

is very important

to allow

persons

with disabilities

to succeed

at work

•

The associations

of persons

with disabilities

,

public entities

and politics

must

collaborate

to improve

work

inclusion

of persons

with disabilities

•

It is very important that

persons

with disabilities

receive

fair

compensation

,

have

the possibility

of career advancement

,

work

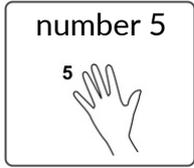

in a safe

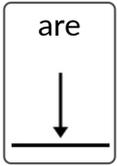

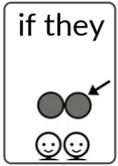

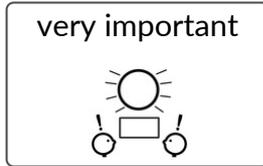

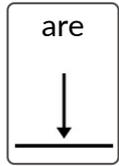

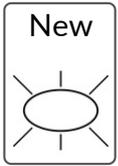

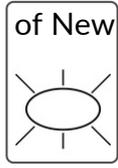

place

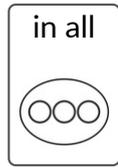

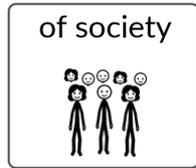

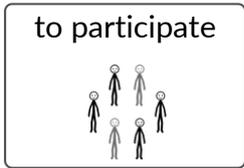

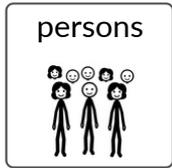

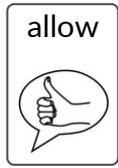

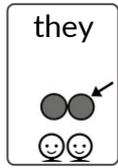

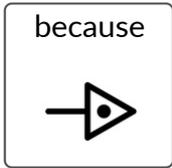

.

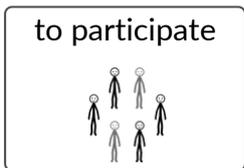

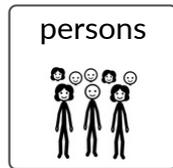

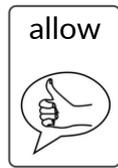

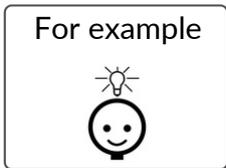

:

,

.

,

.

New technologies help improving inclusion ,

but they must be accessible .

Persons with disabilities must participate

in the design and realisation of new accessible technologies .

New technologies are important and useful ,

but there are risks .

For example it is important to protect personal data .

name , surname , age .

The ministers

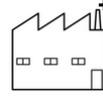

want

to collaborate

with companies

,

with organisations

of persons

with disabilities

,

with the representative

of training institutions

and of the technology sector

and with persons responsible

for the security

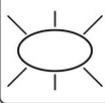

of technological systems

to create

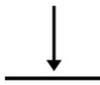

new

technologies

which are

inclusive

,

accessible

and safe

.

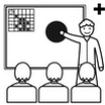

It is important

that technology experts

are trained

on accessibility

.

The ministers

also

want

To guarantee

that persons

with disabilities

•

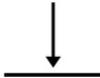

get

information

which are

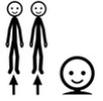

easy to read

and to understand

and that they

can

use

the communication form

they prefer

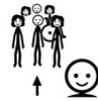

,

as

everyone else

•

To create

accessible

digital systems

•

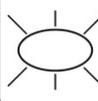

To promote

awareness

of new

technologies

•

so that everyone

can

use them

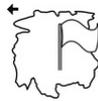

,

also

in Countries

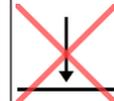

where

technologies

are not

very developed

•

The ministers

encourage

the technology manufacturing sector

to create

support

technologies

in order to promote

independence

and autonomy

of persons

with disabilities

at work

,

in education

,

in information

and health

.

The ministers

say that

technological tools

must

be

accessible

:

that is

easy

to use

and understand

and not too expensive

.

Priority

number 6

:

Sports

,

Recreational

and Cultural Dimensions

of Life

Sports

,

recreational activities

and cultural activities

are

important

for persons

with disabilities

,

for the physical

and psychological

well-being

,

to make friends

,

to have

new

personal interests

,

to improve

abilities

.

Sport

counters

discrimination

and marginalisation

.

Persons with disabilities have the right

to fulfill their desires and preferences

When there is an emergency situation ,

or climate-related extreme events ,

persons with disabilities are more at risk of dying

compared to persons without disabilities .

For this reason , during emergency situations

it is important to consider the needs

of persons with disabilities .

The governments of the various Countries must consider the needs

of persons with disabilities .

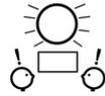

The ministers

say that
